

**Ram Huggahalli**  
**Principal Hardware Engineer**  
**Microsoft**

Ram Huggahalli is a Principal Hardware Engineer in Microsoft's Azure Hardware Systems and Infrastructure group. His focus areas are hyper-scalar systems architecture, SoC/platform-level interconnects and accelerator architecture strategies for the next 2-4 years. Prior to Microsoft, Ram has been with Intel Corporation contributing to memory and I/O subsystem directions in various Xeon processors and platforms, large scale HPC interconnect product roadmaps and system level simulation methodologies. Ram has MS degrees in Electrical Engineering and Engineering Management from Missouri University of Science and Technology.
